- Chapter 06 - Human Resource Profile
- Chapter 07 - Compliance Report

Chapter 1 - Institutional Profile/Executive Summary

1.1 Introduction

1.1.1 District Boundaries and Geographical Background

The Nuwara Eliya District which is known as the Roof of Sri Lanka is situated in Central Province and surrounded by Kandy, Badulla, Kegalle and Rathnapura Districts. Various mountains with height range from 900 - 8000 feet such as Pidurutalagala the highest mountain in Sri Lanka and Kirigalpoththa, Thotupola Kanda, Kikiliyamana, Great Western, Haggala and the most sacred Sri Pada Mountain are situated in Nuwara Eliya District.

Nuwara Eliya has become a paradise to the foreigners due to that the water falls such as Lakshapana, Devon, Aljin, St'clares, Ramboda, Bakers, Kurugu Ella, Garandi Ella and also the beginning of Mahawelli, Kelani rivers and Horton planes sanctuary and Haggala Botanical Garden which are famous for foreigners are found in Nuwara Eliya District. And the main reservoirs that contribute to Hydro Power in Sri Lanka such as Maussakelle, Carseltree, Kaniyon, Norton Bridge, Kothmale, Randenigala and large area of Victoria reservoir also situated in Nuwara Eliya District.

Also the population in Nuwara Eliya about 57.1% are Tamils and rest are Sinhala and various other nationalities. When considering the climatic condition of Nuwara Eliya, it is most suitable for agriculture and it is famous for vegetable cultivation.

Nuwara Eliya extends to 1741 Km² and annual rain fall is about 75 inches. The main feature of the District is that Nuwara Eliya area where the lowest temperature was recorded in Sri Lanka.

1.1.2 Historical Background of Nuwaraeliya District

Nuwaraeliya has been complimented as “Little England” after the historical discovery of Nuwaraeliya by John Davey, an English national, in the year 1819. Nuwaraeliya, which was first used by the British for the cultivation of the crops for their own benefit, as a tourist center and later as an administrative unit, had become next beloved motherland for them. This was because the climatic conditions in Nuwaraeliya was very much similar to that of their motherland.

Yet, the legends and the documentary evidence indicate that the history of Nuwaraeliya goes as far as pre historic era. For this purpose, the Horton Planes was identified as a place with distinctive archaeological importance. Horton Planes is a place which has attracted the special attention of the archaeologists as a region with extended civilizations of the Central Hills in the pre historic era.

The 'Idayim' book (The book on boundaries) of the island of Sri Lanka indicates that there were 42 regions in the Ruhunu country out of the three Sinhale countries Ruhunu, Maya, Pihiti, with regions including Kothmale Rata, Mathurata, Goda Rata, Katubulu Rata, forming Nuwaraeliya .

Though Nuwaraeliya has been characterized with a commercial appearance at present with its tea cultivation, it is said that it was a thick jungle in the past full of wild elephants. From the electorates Walapane, Hanguranketha, Kothmale, Nuwaraeliya and Maskeliya constituting the upcountry, Nuwaraeliya district has been the wetland. This region was not colonized by the ancient kings because it was utilized as a protective zone and a water resource blessed with rainfall .

Though, historical evidence are not available, history of Nuwaraeliya places significance on the legend of Rawana. Legends say that in the prehistoric era, King Rawana had made Badulla region his capital city of which Nuwaraeliya was a part and parcel of the said administrative region, after the abduction of Seetha King Rawana had kept her in protection in a cave in Sthreepura hill which is at present innundated by the waters of Randenigala reservoir in the Paranagama area of Walapane. Queen Seetha was infected with an ophthalmia due to the lack of ventilation and sunlight in the cave. Seetha Eliya is known as the place where she was brought to expose herself to sunlight and the legends say that she had lamented her serious desolation in the area presently known as Walapane.

Another legend says that Kuweni being chased away by King Wijaya had fled with her two children and lived in Dhoragala in Kothmale and Yakinigala. Her two children from whom the Veddah people descend after Kuweni was killed by the people of Yaksha tribe, fled to Samanala region and lived there.

The region of Hanguranketha, Walapane and Kothmale possess historical evidence in proof of its definite history. The fact that different place names associated with these areas are in constant dialogue with historical phenomena provide perfect examples for this. The Mahawansa describes that the prince Pandukabhaya who had initiated the city of Anuradhapura had made use of Dolugala area for his military organization activities. It is believed that this region may be Dolugala in Hanguranketha . Historical significance exists about the King Dutugemunu and the Kothmale region, as well. Prince Dutugemunu prior to his crowning organized his battle against King Elara for the unification of Sri Lanka during his stay in Kothmale region. It is also said that King Kawanthissa had planted a sapling of Sathalis maha Bodhi in the Pusulpitiya temple.

The Mahawamsa gives evidence to the facts that in 103 B.C., King Walagamba while staying in Walapane after fleeing from enemy invasions, had constructed Raja Maha Vharas in Yatimadura, Wilwala, Araththana and Kadadora. An inscription on a stone in Ambagamuwa mentions that in the Polonnaruwa era, King Wijayabahu had given a land-grant for the maintenance of Sri Pada and the pilgrims worshipping Sri Pada. This stone inscription is known at present as Ambagamuwa stone inscription.

The history of the shasana mentions that during the reign of Polonnaruwa kingdom during 1215 - 1236 A.D. with the destruction of temples and stupas by the invasion of Kalinga Magha, the relics of Dalada and Pathra had been brought for protection by the Bhikkus headed by Wachissara thero to Kothmale region.

During Dambadeni era, the king Third Wijayabahu had brought the sacred tooth Relic with reverence for protection to Beligala area. Inhabitants of the area believe that Dimbulakanda, the residence of the king Wijayabahu who stayed there for the returning of the sacred Tooth Relic to his kingdom is named as Wijeba kanda at present, the village in which the procession was decided upon is named as Niyamgamdora and the village from where the flowers had been obtained for the procession is named as Maldeniya. Further, it is said that king Sitawaka Rajasinha after converting himself to Hindu faith had conveyed Kothmale region to Arittakee Wendu Perumal.

With the inception of Kanda Udarata as the key administrative centre of Sri Lanka, the regions of Walapane, Kothmale, Hanguranketha have gradually become settlements. Historical evidence indicate that these regions had become provinces subjected to the direct control of the king. Walapane region had been a centre of protection from the Portuguese for the king Wimaladharmasuriya. Historical sources give evidence to the fact that the king had later reconstructed the Maluwegoda Raja Maha Vihara and had constructed a palace in Maligathenna. Harangala region of Kothmale, Rasingala region of Walapane had been mentioned as regions that provided protection for the King Rajasinha, the Second who reigned from 1635 A.D. to 1687 A.D. and this area then known as Diyathilakapura was named as Hanguranketha by this king. King Keerthi Sri Rajasinha who reigned from 1744 A.D. to 1782 A.D. had concealed the sacred Tooth Relic in Araththana Raja Maha Vihara to protect from the Dutch invasions and initiated a procession in felicitation of the sacred Tooth Relic based on this temple which was later referred to as the Hanguranketha Esala Procession. Mandaram Puwatha and British documents of the colonial era establish well how these areas provided protection to the kings and their existence as sub administrative units. In 1803, King Sri Wickrama Rajasinha, according to existing information, had come to Hanguranketha, constructed a palace and lived there with his royal women.

The English, who overpowered all the sacrifices of these freedom fighters consolidated their power and developed Nuwaraeliya town as a holiday residence. The Governor Edward Barnes pioneered for this. The Grand hotel in Nuwaraeliya is located at present in the holiday center constructed by the Governor Edward Barnes for his comfort. Nuwaraeliya region had become populous due to the system of roads constructed joining Gampola, Nuwaraeliya and Badulla during the British era. Nuwaraeliya region had become a region of high economic importance due to the reasons that the colonial authority was successful in the cultivation of tea after the failure of the cultivations of coffee and cinchona and the climate was suitable for the cultivation of vegetables. As the region of Nuwaraeliya was gradually developed by the British as an administrative unit constructions with British architectural features are seen even today reminding the colonial history. Further, throughout

the district of Nuwaraeliya, a blended ethnic composition is created and their respective streams of culture have blended due to the inclusion of South Indian Tamil community being employed for the routine work of the extended tea cultivation. The fact that the majority of the population of Nuwaraeliya district at present is composed of the Tamil community is due to these historical phenomena.

1.1.3 District Map

Extend According to the land use		
	Extend (Km ²)	Percentage
Land area	1,690.2	97.08
Internal Reservoirs	50.8	2.92

1.2 Vision, Mission, Objective of the institution

VISION

Creating a high standard of life for the people of Nuwara Eliya District through an efficient and productive service.

MISSION

Discharging duties for the District and people of the District efficiently, fairly and friendly through a coordination under well planned resources and good Institutional productivity according to government policies in order to take part in national development.

OBJECTIVES

- Constructing an effective public service by coordinating public and private sector activities.
- Coordinating, executing and Managing various socio economic development projects and Monitoring the implementation.
- Promoting a cultural openness, trust, diversity and equality.
- Improve communication and collaboration among Divisions, departments in line with government policies through better management.

1.3 Key Functions

- Execution of Government functions through coordinating all Government Ministries, Departments and other institutions as well.
- Collection of revenue assigned by the Central Government and the Provincial Council.
- Coordination, supervision and administration of all Divisional Secretariats.
- Coordination of activities related to the Provincial Council/ Ministries/ Departments.
- Implementation of Development Activities under Decentralized Budget and other allocations provided by various Government Ministries and Departments.
- Holding the responsibility of organizing Public, Religious, Cultural and other festivals, at district level.
- Coordinating the public institutions with civil organizations, nongovernmental organizations and the general public and also plays a mediation role in settling certain social issues.

1.4 Organization Chart

1.5 Divisional Secretariats of the District Secretariat

Extend of the Divisional Secretariats		
Divisional Secretary Division	Extend (Hec.)	Percentage
Kotmale	225.0	12.92%
Hanguranketha	229.0	13.15%
Walapane	320.0	18.38%
Nuwara Eliya	478.0	27.46%
Ambagamuwa	489.0	28.09%
Total	1,741.0	100.0%

Chapter 2 Progress and the Future Outlook

2.1 Special Achievements, challenges and future goals

2.1.1 Special Achievements

1. Recorded the best financial & Physical performance under the "Gramashakthi Programme" and able to launch several New income generating activities.
2. Establishing a well functioning Investigation Unit to investigate and solve public issues in Nuwara Eliya District.
3. Establishing an Information Centre to provide required information to general public and organization.

2.1.2 Challenges

1. Challenges in finding a suitable living place for general public due to the scarcity of Land.
2. Delayed activities due to Natural Disasters.
3. Reduction of forest cover and catchment area due to human activities.
4. Lack of vehicles and challenges faced while visiting rural areas in District, Divisional level due to the unconditional vehicle in government offices.
5. Due to a smaller number of technical officers (civil) in District, Divisional offices, Challenges faced while implementing development projects and problems in completing the projects on time.

2.1.3 Future Goals

1. Plan and started to establish coffee (Coffee arabica lakparakum strain) belt through the Nuwaraeliya district by selecting eligible GN divisions for coffee cultivation according to elevation (2600-5000 ft above the mean sea level). We expect to get more foreign exchange through this establishment.
2. Developing a tour guide plan with attraction points in order to promote tourism in Nuwara Aliya district.
3. Waiting for approval from the ministry to implement "Strategic plan for Agro-Economic Development, Nuwara Eliya district 2021-2025" that has been already prepared and submitted.
4. Plan to establish new 5 Divisional Secretariat /Sub office

Head of the Department
M.B.R. Pushpakumara
District Secretary / Government Agent
Nuwara Eliya

3.4 Notes to the Financial Statements - Basis of Reporting

1) Reporting Period

The reporting period for these Financial Statements is from 01st January to 31st December 2019.

2) Basis of Measurement

The Financial Statements have been prepared on historical cost modified by the revaluation of certain assets and accounted on a modified cash basis, unless otherwise specified.

The figures of the Financial Statements are presented in Sri Lankan rupees rounded to the nearest rupee.

3) Recognition of Revenue

Exchange and non exchange revenues are recognised on the cash receipts during the accounting period irrespective of relevant revenue period.

4) Recognition and Measurement of Property, Plant and Equipment (PP&E)

An item of Property, Plant and Equipment is recognized when it is probable that future economic benefit associated with the assets will flow to the entity and the cost of the assets can be reliably measured.

PP&E are measured at a cost and revaluation model is applied when cost model is not applicable.

5) Property, Plant and Equipment Reserve

This revaluation reserve account is the corresponding account of PP&E.

6) Cash and Cash Equivalents

Cash & cash equivalents include local currency notes and coins on hand as at 31st December 2019.

3.6 Performance of the Utilization of Allocation

Rs. ,000

Types of allocation	Allocation		Actual Expenditure	Allocation utilization as a % of final allocation
	Original	Final		
Recurrent	487,000,000.00	487,000,000.00	481,823,956.00	99%
Capital	27,000,000.00	31,050,000.00	22,128,276.00	71%

3.8 Performance of the Reporting of Non-Financial Assets

Rs. ,000

Assets code	Code description	Balance as per board of survey report as at 31.12.2019	Balance as per financial position report as at 31.12.2019	Yet to be accounted	Reporting progress as a %
9151	Building and structures	300,800.00	1,717,274,689.61		
9152	Machinery and equipment	4,541,702.26	300,389,073.95		
9153	Land	0.00	300,472,500.00		

Chapter 4- Performance Indicators

4.1 Performance indicators of the Institute (Based on the Action Plan)

Specific Indicators	Actual output as a percentage (%) of the expected output		
	100% - 90%	75% - 89%	50% - 74%
1. Investigated public Issues	✓		
2. Completed projects			
2.1 Gamopetaly Development Programme		✓
